Attn Mr. R Neumann

Dear Bob

May we take this opportunity to thank everyone at Global Switchgear Services Ltd for continually providing the cluster team at A& P Falmouth with a service, which I believe to be, second to none. The speed of response and professionalism shown when working with us coupled with the technical knowledge and positive attitude of all your Engineering staff is a great credit to the company, which in turn only enhances our own reputation with the Royal Fleet Auxiliary.

Please pass on our sincerest thanks to all and we look forward to your continued support and partnering in the successful execution of the Cluster Support Contract.

Very best regards

Jamie
